

Leandro Moon

Digital Product Architect | leanmoon148@gmail.com | +54 11 3933-1981 | linkedin.com/in/leanmoon

Professional Summary

SSR Digital Product Architect specialized in the full product lifecycle. I act as the link between business, technology, and end users, translating real pain points into scalable digital solutions. Experienced in AI workflows using Claude + Custom Skills, LLMs, and MCPs applied to process automation and product development. Oriented toward interdisciplinary teams and agile work environments.

Professional Experience

Digital Product Architect | Goldmund SA (Peabody) *Dec 2023 – Present*

- Product Leadership (PO): End-to-end direction of digital projects, acting as the central link between stakeholders and end users.
- AI Solutions: Implementation of AI Workflows using Custom Skills (.md) to automate processes and develop digital solutions.
- Design & UX Criteria: Creation of information architectures and prototypes focused on simplifying human interaction with complex systems.
- Technical Supervision & QA: Coordination of digital solution development, version control on GitHub, functional QA, and UX Flows.
- Data Architecture: Data persistence and management with Firebase, Supabase, and SQL for data-driven decision making.

Freelance Web Developer & UX Designer | Independent *2022 – Present*

- End-to-end landing page development for pitch decks and project presentations, from brief to deploy.
- Ecommerce store setup on Shopify and Tiendanube for fashion brands: asset design, catalog configuration, and branding guideline adaptation.
- Front-end interface mockups focused on performance, usability, and visual consistency.

Technical Skills

- Strategy & Product: Product Discovery, Information Architecture, UX Flows, Roadmapping, Functional QA, Design Systems, Agile Methodologies (Scrum / Kanban).
- Development: React, Vite, Next.js, TypeScript, Node.js, HTML/CSS, Python, SQL.
- AI Stack: Claude + Skills, Gemini, Codex, Prompt Engineering, MCPs, AI Workflow Design.
- Data & Cloud: Firebase, AWS, Supabase, PostgreSQL, Google Analytics, Google Cloud.
- Management & Collaboration: GitHub, Jira, Slack, Notion, Figma, Miro, Botmaker, eMBlue.

Education

- B.A. in Digital & Interactive Communication – UCA (2026)
- Multimedia Design – Escuela Da Vinci (2025)
- Certificate in Digital Product Management – University of Virginia (2025)
- Certificate in Generative AI Leader – Google Cloud (2025)
